He brings experience to bear stemming from more than twenty-five years as an analytics professional. His career has consisted of consulting, product development, client service, technical, and sales roles within software, consulting and market research firms.

“How to Change and Improve the Future of Your Safety Program”

Thursday, November 14 - 8:30 a.m. - 10:00 a.m. - Embassy Suites Hotel, Queen City Ballroom
Nearly all our safety data collection and reporting systems are backward-looking: incident reports; dashboards; compliance monitoring systems, etc. In an age where buzz phrases such as “big data”, “machine learning”, and “AI” inundate us, how can we distinguish hype from reality? Are there ways to use safety data in a forward-looking, predictive sense? This presentation will demonstrate real cases where organizations have reduced incidents by employing predictive analytics to foresee and mitigate future risk.

Kristen Biedermann, CHES

Wellness Coordinator, City of Fayetteville

Kristen received her Bachelor's of Arts in Sociology & minor in Health Promotion from University of North Carolina at Pembroke and her Master of Arts in Health Education from East Carolina University. She is a Certified Health Education Specialist as well as Work site Wellness Specialist. She began her career in health educating in 2016 at First Health of the Carolinas, and began working with the City of Fayetteville in September 2018. While there, she has been able to build and grow the City's new wellness program in an effort to give employees more opportunities to better their health.

“Wellness and Safety: Partners in Success”

Thursday, November 14 - 10:30 a.m. - 12:00 p.m. - Embassy Suites Hotel, Tryon Room

Dr. Ali Hartman, PT, DPT, Cert-AP HPT Pro-Activity Associates, LLC

Dr. Ali Hartman is a musculoskeletal expert well versed in the prevention and treatment of the costly conditions plaguing our working populations. She is a Physical Therapist and Corporate Prevention and Health Promotion Consultant with Pro-Activity Associates, LLC. Ali is a firm believer that the answer to the workplace's and nation's chronic pain problem is for professionals to learn more about workers and how the workplace affects their health and behavior on and off the job.

“Communicating Your Safety and Health Vision”

Friday, November 15 - 9:00 a.m. - 11:45 a.m. - Embassy Suites Hotel, Woodlawn Room

Andy Sterlen, MESH, C-MESH, IH-MESH Health and Safety Specialist, NC Department of Labor, OSH Division Bureau of Education, Training and Technical Assistance - Raleigh, NC

Andy began his career as a process chemist in the field of polymer chemistry where he was introduced to plant design and engineering including the mysteries of process safety management. After 4 years, he returned to graduate school at NCSU in Pulp and Paper and Chemical Engineering. He returned to industry as a plant manager and lead engineer where there he honed his professional safety skills creating and managing an effective Process Safety Management program and chemical hygiene plan. After 13 years he joined NC DOL as a Health and Safety Education and Training Specialist where he continues as an instructor in various safety and health including chemical hygiene and PSM.
